Please share this bulletin (“in-house” only!) with colleagues and governors and put it on the noticeboard!

Your local and leading not for profit, community interest company, serving the education and community sectors.

We are well into 2021. What a start to it, and the further challenges you are facing! Great news on the progress of inoculations, (we are not sure calling it a jab encourages the squeamish) with all its promise for the future. In the meantime, however, it is continued best practice, vigilance, and if necessary, calling out those who may not be cooperating with all control measures.

The data that continues to flow about the consequences of this on some individuals and some groups' mental health now, and the anticipation for the future, continues to grow. As you know DS has always been a strong exponent of the power of wellbeing and mindfulness. We see it as part of the core of a strong and healthy safety system. So, not only are the RM&R team there to support you with this, but also our Network Partners. You may have already spotted the introduction of more skilled, passionate, and talented people to the team in the weekly briefings, but just in case you missed them, look out for them inside.

Did you also spot that as a separate initiative, we have introduced a standalone special communication on the services and support available from our Network Partners? These are, of course, backed up by matching content in the private Go To website for agreement customers and on the public website. You may not need any of their services at present, but we'd appreciate it if you'd store them in the appropriate place, so that if a review or need arises, you give us a shout.

Sophie has as usual, as well as the content mentioned above, put together another professional and sectors specific Bulletin for you, with the addition of being able to manoeuvre from the index to items of particular interest and back again. As usual we welcome your feedback on it and any suggestions for future content, improvements, etc are welcome.

Enjoy!
Best wishes,
Delegated Services
